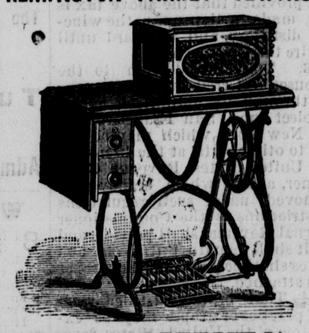
REASONS WHY

THE

REMINGTON FAMILY SEWING



MACHINES

Are Superior to All Others.

FIRST—THEIR SIMPLICITY,

The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION

of the Machine is such that it may be run at a higher rate of speed than any Shuttle Machine now in the market. In factories where the rate of speed has been registered, over

1,000 Stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS,

Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

Feed which may be raised or lowered at pleasure.

SEVENTH—ALL THEIR MOVEMENTS

are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing company in America, possessing a world-wide reputation in the manufacture of their firearms, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the

REMINGTON

It arouses the jealousy, opposition and persistent mis-representation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents devotes the largest part of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

"With malice toward none, and charity for all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing its merits with those of any other, and let them make their own selection.

LATE TELEGRAPHIC NEWS.

A Fire.

WORCESTER, Mass., Jan. 29th.—About seven o'clock this morning a fire broke out in the old building occupied by Tharber & Co., jewelers. The buildings were badly damaged by water. Loss, $10,000.

Clergyman Missing.

NEW YORK, Jan. 29th.—A general alarm was sent out from the police headquarters to-day, announcing the disappearance of Rev. Mathew Johnson, the Baptist clergyman of Trenton, New Jersey, who left last Monday and arrived safely in this city, since which time he has been missing.

Coupons Stolen.

NEW YORK, Jan. 29th.—The report that $5,000 in gold certificates was stolen from the cashier's office in the Custom House, in this city on the 21st instant, is confirmed. The theft was discovered in the office of the cashier soon after it occurred and was reported to Collector Arthur who placed the case in the hands of the detectives, Mr. Robinson, the cashier, is thirty years in service and and above reproach and all his assistants bear high character for integrity. The theft is the first which has occurred in the office and no explanations can be given as to how it occurred.

A special from Chester, South Carolina says that the town was alive yesterday with at least 7,000 persons, principally negroes, to witness the execution of Stephen Young, for the murder of Georgie Mercer, both colored, at a negro dance on the 29th of last December. The execution took place at 12:20 P, M., in an open field a short distance outside of town. The prisoner was cool and self-possessed. His neck wasn't broken yet he died without a struggle.

San Diego Items.

[From the World of the 29th.]

Friend Caswell, whilom of this village, now loose on the commnnity, is back here viewing his old friends, and his old haunts. We are glad to say he is in good condition. We occupy his old quarters; and this morning he marched in to have a look at his old place of trouble. He says he is still in love with San Diego.

The late rains have brought up the mushrooms again, though they are not abundant, because perhaps it has been a little cool for them.

Mr. Charles Gassen returned yesterday from a little pasea in the east of the town, looking after his cattle, When we met him, late in the evening, we were gathering mushrooms along in the street, in front of our residence, when he said to us that a good place for that sort of fruit would be up in the white mountains, pointing eastward. We did not see the white. But he said he had been up there, and that there was plenty of snow on the high places and some on the low lands. We shall take his word for it.

The ponderous *Express* and the lithsome *Herald* are at it tooth and nail, on the railroad question. As we down here look at the *Express* as a sort of runaway from the Texas-Pacific, we feel as though we are willing for the other to handle it quite scientifically, which it can easily do. Its terseness and point are sure to tell in the encounter. It digs in, while the other takes words without number to reply. The one is said to be the organ of the Independence road and the other of the Southern Pacific, and so we wag. Tom Scott will perhaps yet give these belligerent gentry peace.

Attempted too Much.

No occupation or profession is responsible for the virtues and vices of its members. The hypocrite steals the garb of heaven to serve the devil in. The trickster swears to defend justice, that he may the better betray her to her enemies. It has long been the boast of the Press that but a small proportion of the world's great crimes has emanated from those associated with newspaperdom, whether in an executive or subordinate capacity. It has remained for Boston to blot this fair record and develop a man who for the small sum of $400,000 has written himself as a forger and rascal generally. This man is E. D. Winslow, editor and proprietor of the *Boston News* and *Boston Post*, who is now a fugitive from justice. The demands made upon patience and forbearance in the publication of one daily journal is a matter of general knowledge, but it seems as if the attempt to conduct two papers invariably leads the projector into a position antagonistic to the public good.—*Alta.*

SENATOR LANE insists that editors shall publish nothing that does not have the name of the writer appended. All laws should be general in their bearing, and those that are not are tyranical and soon become obnoxious to the people. Let us make this authorship law bear alike on all. Let us have no unsigned articles in newspapers; no speaker shall speak any but his own speeches; no lawyer shall go into Court with a brief or other legal document that he did not write himself; no minister shall preach any but his own sermons, and Legislators shall not hire clerks or others to get up their bills. If Senator LAINE will make his bill read thus, we have no objections to its passage.

THE suggestion of the HERALD that another railroad may be built from this city to the sea, has brought the subject to the consideration of a number of those interested, and we are confident that a survey of the route will be made in a short time. The building of this road will give Los Angeles two lines of rail to Santa Monica bay and will secure us that competition for which some of our people are clamoring. Let us have this other road by all means. Competition is a good thing when the people do not have to build the roads at their own expense. The HERALD is in favor of competing roads when they can be built at the expose of those who own and run them.

Good Time.

The ARIZONA and New Mexico Express Company, an advertisement of which will be found in the columns of the HERALD, has fairly commenced operations. Starting from Whitewater, the present terminus of the Southern Pacific railroad, the passenger finds himself seated in a fine coach, drawn by six horses, and he moves toward his destination at a rate of speed similar to that at which the old California Stage Company were in the habit of transporting their passengers—say ten miles an hour. In three days he reaches Prescott and in four days Tucson. This statement will astonish those who have made this trip when it consumed about two weeks. The company commence on tri-weekly trips, but the indications are that in a short time they will run a daily line. This route, while it is the shortest, is also the best, that has yet been established between San Francisco and Prescott and Tucson. It is an enterprise in which Los Angeles is directly interested, as it turns the travel, and ultimately the trade, of Arizona to and through our city, from which, of course, we shall derive considerable profit. The company are well satisfied with the patronage they have thus far received, and are confident that the business will soon necessitate a daily line of stages.

Suicides Increasing.

Suicides are getting to be so common that hardly any community is shocked when it is announced that one or two of the old citizens have taken poison and sent themselves over Jordan. The greatest philosophers of the age have attempted to give a solution of the cause of the increase of suicides, but it is still a mysterious problem. All we can say is, they are tired of life. But what makes them tired? that is the question. Disappointments are no more common now than in the days of our grandfathers. They had as many trials as we have, and they had to toil as hard for existence as we do. They lost fortunes; were deceived by false friends; oppressed by creditors; sold out by the Sheriff—their sweethearts jilted them all the same as ours have jilted us—but very few of them were so cowardly as to think of killing themselves for these little trifles. Their philosophy and their religion were on a better basis than ours. The best philosophy and the best religion teaches us not to shirk or try to dodge troubles, but meet them and overcome them in a manly way. It is the feeble order of mind that would think of getting out of the world to escape trouble. A man can never know himself or show to the world what stuff he is made of until he has weathered a few storms, fought a few hard battles and overcame adversity. These things really make a man, or woman, and are sent upon us for the noble purpose of developing the best qualities of our natures.

Must Not Condemn.

It is reported that the Assignees of TEMPLE & WORKMAN have about completed their report of the financial condition of the bank, and though there are many rumors floating about the streets, nothing definite is known beyond the fact that affairs are in a tangled condition. It is perhaps as well not to give unauthenticated statements, and to await the official report. Soon after the investigation began the HERALD, on the authority of one of the Assignees, published that at least two of the employees of the bank had overdrawn their account by a large sum, and that of the $750,000 securities, probably not over $300,000 were collectable. For this we were soundly rated in certain localities. A business may be criminally mismanaged and thereby a few thousand people lose a part at least of all they possess, and are inconvenienced by having whatever may come back to them locked up for a long time. Yet the journal that dares to speak in terms condemnatory of this mismanagement and of those who are to blame for it, is denounced by certain few who while ever ready to condemn others are highly indignant if their short comings are held up to public gaze. We do not believe that the community as a whole think that wrong and peculation should be passed in silence, but there are certainly a few people who entertain a different opinion. With those individuals the HERALD is not and never has been popular.

For the Common Council.

EDITOR HERALD:—Whatever opinions a thinking mind may arrive at they become the personal property of the individual who has thought for them, and he has equally the same right to defend them as he would any other property he may possess, even if the corporation of a city should attempt to steal them from him. Now, sir, I have my opinion of the act authorizing the corporation of the City of Los Angeles to issue bonds for building a main public sewer, and also of the ability of the existing Common Council and their *sattelites* to build the sewer and spend the peoples' money in a judicious manner.

I WISH TO UNDERSTAND

that several of the present Council are no novices, but rather tried old veterans who have been off and on running one municipal machinery for years past, hence with your permission I will endeavor to prove their future proceedings by what they have already done, which every candid mind will admit to be a fair test.

Without noticing overflowing sespools which, after filling the district of their location with offensive and obnoxious stench and then abandoned with many thousand feet of lumber buried in them, I will begin with what is called "the Los Angeles Main Sewer. Now

THIS MASTERPIECE

of Los Angeles municipal engineering was commenced upon as recently as four years ago last Summer on Los Angeles street. The exact size of it I do not remember, but I know that it is remarkably small and built with lumber, but if you should happen to go from Main street down First and turn to your right at the first corner you can see the top boards of it uncovered for a considerable distance. If curiosity should lead you to follow its course a little further you will find that they have changed their plan of operation and built it with brick two feet wide by fifteen inches high, with a flat bottom and a wooden cover to cap the whole. Now

THIS SEWER

has been carried forward from time to time in consequence of its insalubrious effect upon the sanitary condition of the unfortunate ones who lived within the boundary of its mouth, and time can only prove where it will stop. But this we know we have it now under water with upwards of five feet of earth in front of it, dancing to the tune of sixty dollars a month with the tax-payers left to pay the water.

Now a word or two on the Main street sewer, which discharges itself into the above one. If I am allowed an opinion, I must say that even this, after the expense of many thousands of dollars to the property owners, will ultimately prove another failure. Did it never strike the Common Council and the advisers, that a sewer of such small dimensions as three feet by two feet will soon be choked up by the amount of filth it is expected to carry away? But they have

A MANHOLE.

Every fourteen hundred feet apart. Yes, and I should like to know what they are for? Do they imagine that they will find some one foolish enough to descend them and go through the sewer to clean it? Surely the attempt would be suicide. If they had a manhole on the corner of each block with a stench trap at the bottom, about six feet below the sewer to catch the sediment, they would have a better chance of keeping it open by occasionally emptying these as they filled, which they could easily do with a windlass. I once commenced to suggest the above plan to one of our city functionaries, but I did not get many words in before I was stopped with the assertion that they had arrived at a better system of sewerage than what they had in any of the old countries. Surely if the Los Angeles plan is a sample of it, I pity the old countries. Now, that we want a better system of sewerage is a lamentable fact, but at the same time we want far more competent and practical men to carry it out than we so far have had. The first section of the above act goes to say that the main public sewer is to be constructed of such dimensions and materials and in such manner as

THE COMMON COUNCIL

Shall determine to be best. But the Common Council have determined all their failures in cesspools sewerage and street grading to be best, yet their work proves the fact that all they have done is simply recklessly squandering money which was not their own. In conclusion I beg to inform the tax-payers that the above act is not yet law, as the Legislative Assembly are waiting to hear the voice of the people before they will pass it. I am informed that a petition is going around, and all I have to say about it is, let us think before we act. The sum of $130,000 is a great amount to spend without judgment.

Yours truly, R. HUGHES.

San Francisco News.

SAN FRANCISCO, Jan. 31st.—Saturday evening a boy fifteen years old named Bernhard was set on by four footpads. One of the men threw his hands over the boy's eyes, another pulled out his pistol, while the other two deliberately cut out his pockets and were rewarded only with a few dollars for their trouble. The boy was pretty badly choked, and to make sure that he could make no out-cry till they got some distance, they knocked him down, stuffed his mouth with dirt and threw some in his eyes.

The Board of Health had a lengthy meeting to-day at which the active Hospital Committee was cutting off supplies of liquor and eggs at the alms-house was discussed. One of the visiting physicians said that two or three patients had already died because their allowance of stimulants had been stopped and more were dying from the same cause, and said further that a large proportion of the four hundred patients in the Hospital are men who have been enfeebled by exposure, abuse or prolonged disease, so that without stimulants and the most nutrious diet they have no hope of restoration or continued life, and at least fifty are in the advanced stages of pulmonary consumption. If the withdrawal of the support from their poor people be founded on the idea that it is bad policy to prolong the useless lives, the design would be still more effectually accomplished by reducing the diet to bread and water. The Board appointed a Committee of three to meet the Hospital Committee of Supervisors to investigate the affairs at the alms-house, and find out whether corruption existed there.

The Beigic brought three Japanese Centennial Commissioners who will, after a brief stay in the city, proceed to Philadelphia to superintend the construction of Japan to the Exposition.

The Tax on Brandy.

Congressman Luttrell has introduced the following bill to fix the tax on brandy distilled from grapes, apples and peaches:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

That on and after the passage of this act the tax upon brandy distilled from apples, peaches, and grapes shall be sixty cents per gallon.

SECTION 2. That immediately after the completion of the distillation made by a distiller of apples, peaches or grapes, that the United States gauger shall gauge, date, number and mark the same, with the quantity, upon each package containing brandy and report the same, with the location of the storehouse, to the collector of the United States revenue tax of the district in which the distillation shall have been made, and the Collector shall require a bond, to be approved by him, for the payment of the above tax in five years, or when the brandy shall be sold. When the stamps shall be issued and attached to the package or packages, after which and not before, the package may be removed from the storehouse. It being further provided that the above tax is hereby made a lien upon the wine-house, distillery, and vineyard until the entire tax shall be paid.

Sec. 3. That in addition to the storehouses referred to, the Government, through its authorized agent, shall select one at San Francisco and one at New York, which may be extended to other ports, at the discretion of the United States Revenue Commissioner, and to which brandy may be removed, under such regulations and restrictions as the Commissioner of Internal Revenue shall provide, and where it shall remain until sold and the taxes shall be paid and the proper stamps attached.

Sec. 4 That brandy distilled from apples, peaches or grapes may be exported free of the United States revenue tax in any package not less than twenty gallons, whereon the tax has not been paid, upon the proper showing from the United States revenue officer, and when the tax has been paid, a drawback of the same shall be allowed to the exporter, provided no drawback shall be made for a quantity less than one hundred gallons.

Sec. 5. That the Commissioner of United States Internal Revenue shall specify in the revenue stamp the fruit from which the brandy shall be made, by inserting in the same grape brandy, peach brandy, or apple brandy, as the fact may indicate.

Sec. 6. That in the enforcement of penalties forfeiting the amount exacted, for which amount a bond may or may not be required, shall not exceed three times the amount claimed to be due to the Government.

Sec. 7. That any removal from the warehouse as herein provided before the tax shall have been paid and the stamp shall have been attached, is hereby declared to be a felony, and if sold, the felony shall extend to both the seller and the buyer, and shall be punished by a forfeiture of the brandy and by a fine not exceeding three times the amount of the tax unpaid and imprisonment not exceeding five years.

Sec. 8. That all persons not officers of the United States Revenue Department are prohibited from marking any package of brandy, and all frauds practiced by which a buyer shall be deceived is hereby declared a felony, and shall subject the party guilty thereof to punishment of imprisonment not exceeding five years, and to a fine not exceeding five thousand dollars.

Mr. Smurr and his beautiful bride have taken rooms at the Kimball Mansion. It strikes a stranger passing along the street about the middle of the afternoon that the Kimball Mansion is just now the residence of quite a bevy of beautiful ladies.

E. Dunham, the Shakspearean barkeeper at Peter Thompson's, performed an involuntary act of ground and lofty tumbling last Saturday that would make him a great addition to a circus troupe could he keep doing it. He rode out to Washington Garden, and on his arrival the horse on which he was mounted commenced to buck and succeeded in throwing him completely over his head, he turning a somersault and landing squarely on his feet, turning around and seizing the bridle of the horse, who was too much astonished to make an effert to run away.

Sad Suicide.

A Sunday night horror—An Insane Lady commits Suicide—A third story Leap—An unfortunate Occurrence.

About twelve o'clock last night the neighborhood of the Lafayette Hotel was horrified by the report that a lady had committed suicide by jumping out of the third story window of that hotel. On inquiry we learned that the rumor was too true.

A WHITE ROBED FIGURE.

Parties on the street at that late hour were astonished to see a white figure appear at one of the windows of the Lafayette Hotel, hesitate a moment, and then jump head foremost towards the pavement. In her descent the unfortunate woman went through the canvass of the Important Dry Goods store, but it was not sufficiently strong to break her fall. When special officer Twomey and others rushed over, she lay a quivering, crushed mass on the brea pavement, only gasping once as they carried her in. It was immediately learned that she was the wife of Mr. J. S. Merrill, machinist, at the San Fernando Tunnel and had been brought here for medical treatment.

THE UNFORTUNATE HUSBAND.

We have interviewed the afflicted husband, who is a middle aged gentleman, of refined appearance, and who seemed overwhelmed by the sad catastophe. He says she was about thirty-six years of age and has lived at the Tunnel since early last December. She was a woman of stout appearance and ordinarily healthy, but lately has been subject to gloomy apprehensions and epileptic fits. Recently she has been very much depressed, producing a kind of

MORBID INSANITY,

For the treatment of which he had brought her to Los Angeles and put her under Dr. McKee's care. She had shown no violent symptoms, though lately she had been constantly repeating to her husband that "a box was coming for me or you," meaning that she or he would die. He laid down on the bed beside her and being awakened by a noise at the window sprang up, but reached the window only in time to see her disappearing through the awning.

THE INQUEST.

The Coroner held an inquest to-day and brought in a verdict in accordance with the facts; that the deceased committed suicide while laboring under a fit of insanity produced by disease.

OTHER FACTS.

The deceased is represented to have been an estimable woman, and her loss is much regretted by her husband and friends, who hoped to see her recover under medical care. She leaves an adopted daughter, who will have the devoted care of her bereaved father. The funeral took place to-day from Neitzke & Wohler's undertaking house.

The Cantata To-Night.

Last night was the last on which the Cantata of Esther was to be presented, but by universal request of both the audience and the singers, Professor Hakes consented to repeat the beautiful piece once more, and it will be given to-night. We need not say that there is much local musical talent of a high order in this city, and those who have attended the two performances of Esther all agree that under the tuition of Professor Hakes they have become so perfect in the roles for which they have been cast that there is little room for fault finding for the most exacting. For the sake of our home musicians the hall should be crowded this evening. The price of Admission has been fixed at seventy-five cents for reaserved seats and fifty cents for general admission.

Geo. Trent, the popular boot-black of the "Centennial," in front of Schindler's store, on Sunday evening discovered a relative in one of the ladies of the Jubilee troupe, one who used to live on the same old plantation. George was so happy that his customers got an extra shine on their boots yesterday, and it is even reported that in some cases he failed to hold out his hand for the fee that was due. Perhaps the Singers will leave a member behind. "Quien Sabe."

Capt. Tobin will lecture this evening at Stearns' Hall, and will read the confession of the bloody Saint J. D. Lee and Bishop Philip Klingersmith, the leaders in several massacres perpetrated by the Mormons. In addition to his own thrilling experience in those massacres, he will also give valuable information in regard to the resources of Utah Territory and the great inland basin which he has thoroughly explored. It will be a lecture well worth hearing.

For the benefit of those who do not often ride on the horse railroads, and also to save the drivers an annoyance, to which they are too often subjected, we will state that the drivers have tickets in their pockets to sell, for which they are responsible, and those who wish tickets should purchase of them. Pay them the money and drop a ticket in the box, and not drop a half dollar into the box where the driver cannot get it, and then call on him to give them two bits worth of tickets and the change, as we saw a gentleman do last Sunday.

Professor La Ransieur is an accomplished professor of the musical and terpsichorean art. He has quite a successful class and we recommend all desiring to perfect themselves in grace of carriage and skill in poising themselves on the waxed floor, to join his select class of students. His academy is in Stearns' Hall.

We were pleased yesterday to meet Mr. Henry Wells, who was en route from San Diego to San Francisco. He expresses himself much pleased with the growth of Los Angeles since his visit among us last Winter. He will return to San Diego by the Orizaba, where he expects to spend the Winter.

Fargo's boys were somewhat puzzled yesterday over a package passing through the express office in this city, addressed, "Mrs. Hos. Pittle Stewart, Droom Borax, Los Angeles co." Pridham tackled it, however, and soon solved the problem. It was going to "Mrs. ——, Hospital Steward, Drum Barracks, Los Angeles county."

Attention, Smokers! 33 per cent. can be saved by buying fine cigars by the box. I have given up the retail business and am able to sell cigars by the box at San Francisco manufacturers' prices. Come to see me—I guarantee satisfaction. Saloons and the trade supplied at very low figures.

"PUTS" and "CALLS."

WE make "Puts" and "Calls" a specialty. This system of dealing in stocks is growing in popularity every day, as it enables persons of small means to take advantage of the rise and fall of high-priced stocks. Hundreds of persons every day make from 200 to 2,500 per cent on money invested in a "Put" or a "Call." We have a large cash capital, and are thus enabled to fully protect our certificates. We have references from hundreds of persons who have made large sums of money by investing in a "Put" or a "Call." The market is lively, now is the time to invest.

Privileges for Ten Shares and Upwards:

SEWING MACHINES!

If you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.

OWING TO THE UNLOOKED-FOR events which have transpired in the past three or four months, and which have made money scarce, I will offer for sale, some

CHOICE REAL ESTATE,

Situated in the centre of the city, viz:

Ninety-seven Lots

FRONTING ON TEMPLE STREET,

On the East side of Pearl, and South of Canal and Reservoir streets. About four minutes' walk from Temple Block.

The Surveyor is now at work surveying these lots. They are not to be laid out in the stereotyped style, in square blocks—in order to get the greatest number of lots, with no regard to the grades of the streets—but

This Tract is Laid out in Park Form,

Each street is made to conform to the topography of the land, thus preserving the natural formation, and reducing the cost of grading to the minimum.

PARK VIEW TRACT

Commands a view of my Park, which will, in a short time, be the

Most Beautiful Spot in the Country.

Already several thousand trees have been planted, and walks and drives made, and fountains constructed, at a great expense.

WATER
Is Already on the Tract.

As soon as the map and survey are completed, the lots will be offered at private sale, on the instalment plan, as follows, viz:

On lots worth from $300 to $400, $20 per month; and on all lots worth more than $400, $25 per month—together with interest at one per cent. per month on the unpaid balance.

Parties desiring to pay in full for their lots before the installments become due have that privilege.

I will hold these terms open till **January 25th.**

Parties who make one payment on a lot can at once take possession by building a house, and avoid the great expense of paying rent, and in a short time, by the saving of this one item of expense, can pay for their lot. Meantime,

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. **Dr. SPINNEY** will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,
